In this module, Practical Evangelism, three kinds of evangelism presentations are taught. We have just finished learning five different methods which can be used to make a Complete Gospel Presentation. Today we will start to learn the first of several Short Gospel Presentation methods. Later we will learn the third kind of presentation, the Lifestyle Gospel Presentation. In summary, the three kinds of evangelism presentations in this module are as follows:

1. The _____ Gospel Presentation includes all five points in each presentation.
2. The _____ Gospel Presentation does not include all five points.
3. The third kind of presentation is called the Lifestyle Gospel Presentation.

Introduction

Fill in the blanks.

1. When only some of the five basic Gospel points are included in the presentation, it is called a Short Gospel Presentation.
 - 1) The first point, _____, is always used in this presentation.
 - 2) The fifth point, _____, is never included in the Short Gospel Presentation, as this presentation is meant for listeners who are relatively new to the Gospel. Any of the other four points may be included.
 - 3) The second point, _____, is never the only point shared as our desire is to tell *good* news. If we were to speak ONLY of sin, that would be all *bad* news.
